Pesticide and Fertilizer training is mostly geared toward traditional agriculture, but there is some more specific training for fruit and vegetable producers coming up on February 2 in Loveland at the Oasis. This will be part of the Southwestern Ohio Fruit, Vegetable and Specialty Crop Conference.

I have fliers in the offices, but the information is also available online at <http://go.osu.edu/swohfvsc> . The conference begins with opening remarks at 9:15 a.m. and will run until nearly 3:30.

If you grow fruits and vegetable and you are looking for more information, I think you need to take a look at this conference. It is loaded with options and outstanding speakers.
